GENERAL INFORMATION

The Winter Quarter of the West Tennessee State Teachers College, session of 1928-29, will open Monday, December 17, 1928, and continue for twelve weeks. The Spring Quarter will begin March 18, 1929, and will close June 5th. It will be divided into two terms of six weeks each, the first term beginning March 18, and the second term April 25th. The Summer Quarter will also cover twelve weeks and will be divided into two terms of six weeks each. The first term of the Summer Quarter will begin June 6, 1929, and the second term July 18. The quarter will close August 24, 1929.

In the Winter Quarter all courses will be given for twelve weeks. Many of the courses offered are continuous, the first having been given during the Fall Quarter. All of the courses given are listed in the following pages.

In the Spring and Summer Quarters some courses will be given for six weeks and some for twelve weeks. Most courses will begin at the beginning of the quarter, but a number of courses will be offered for the last six weeks. Students may register for the whole quarter, or for either term. Credit will not be given for less than six weeks' attendance. Students desiring credit for six weeks' work should register not later than the third day of the term, and no credit for a six weeks' term will be allowed for a later registration. To count credit made during a six weeks' term toward the renewal of a certificate the student must register not later than the second day of the term; and to count a quarter's credit towards certificate or renewal, registration must be completed on or before the fourth day of the quarter. Students desiring full credit for a quarter's work should register during the first week of the quarter.

The Spring and Summer Quarters are being divided into terms of six weeks each in order to accommodate teachers desiring certificates, or the renewal of certificates, who may not be able to stay for the entire Spring or Summer Quarter. Students may make a full quarter's work by attending the first term of the Fall Quarter and one term of the Spring or Summer Quarter, or by attending the last term of the Spring Quarter and the first term of the Summer Quarter. There will be a limited number of courses which may be taken in this way and many teachers may be accommodated thereby.

Teachers are advised to start at the beginning of the quarter when possible and to continue for the full quarter. Where this is impracticable a full quarter's credit may be made by attendance at two six weeks' terms.

SPECIAL SPRING-SUMMER QUARTER

To accommodate many teachers who desire a full quarter's work and who are unable to attend one of the regular quarters of the College, special arrangements are being made for a Spring-Summer Quarter, beginning April 25 and ending July 17, 1929. A number of additional teachers will be engaged to offer new courses during this period. Many of the courses beginning April 25 will be full quarter courses, running through the whole quarter and carrying a full quarter's credit.

Students entering April 25 and continuing for twelve weeks will be charged only the regular fees for a quarter's attendance. Bulletin in regard to Spring-Summer Quarter will be issued in January, 1929.

SPECIAL COURSES FOR TEACHERS IN SERVICE

In order to meet the needs of the teachers in service the College is offering a number of courses scheduled to meet Saturday morning and convenient afternoon hours. In all of these courses full College credit is given, and teachers in service have an opportunity of working towards a College degree while carrying on their regular work of instruction. Attention of local teachers is called to the considerable number of classes scheduled for the hours of three and four o'clock Monday, Wednesday and Friday, as well as to the special classes meeting Saturday morning.

ENTRANCE REQUIREMENTS

For unconditional entrance to the freshman class, the applicant must be at least sixteen years of age and must be a graduate of a standard four-year high school accredited by the State Department of Education or by the Commission on Accredited Schools of the Southern Association of Colleges and Secondary Schools, with at least fifteen approved high school units.

Graduates of unaccredited schools doing four years of high school work may be admitted on certificate from their principal, provided they pass satisfactory examination on four units of high school work taken in their fourth year at the high school.

Teachers and prospective teachers, twenty-one years of age and over, who have not completed four years of high school work may be admitted as special students and allowed to take such courses as they are prepared for, provided that such special students must satisfy all entrance requirements to qualify for diploma or degree, and that these entrance requirements must be satisfied during the first year of attendance.

Such teachers will find many courses in the curricula offered adapted to their needs—courses dealing with common school branches and other phases of elementary education, as well as courses on special subjects beginning in the freshman year. The Summer Quarter will offer regular college courses, and also many courses bearing on elementary and high school work, with a wide variety of professional courses that will appeal to all teachers.

EXPENSES

All students pay a registration fee of $5.00 and a student activity fee of $3.00 each quarter, and a breakage fee of $1.00 once a year. The total expenses for boarding students, including board, lodging, laundry, and all school fees, are $84.00 for the Winter Quarter and the same amount for the Spring Quarter. Students in attendance for a term of six weeks will be charged proportionately for board, lodging, laundry. The other fees are the same for a six weeks' term or a quarter. Rooms are rented by the quarter and no reduction will be made for late registration, or for absence of less than a month. Board is charged from the beginning of the term and no reduction is allowed for late registration. Students absent from the dining hall for two weeks or more, on account of illness or withdrawal from school before the close of the term, will be entitled to a refund.

Registration and student activity fees are not refunded, and no other refund will be made except as indicated above.

TUITION

Students, residents of Tennessee, who sign a pledge to teach school in Tennessee pay no tuition. Non-residents and residents who do not sign the pledge, pay tuition of $30.00 per quarter.

LABORATORY FEES

The following fees are charged students pursuing courses in the several departments to cover materials used:

All courses in Biology, Drawing, Manual Training and Physics, $1.00 each per quarter.

All courses in Chemistry, $2.00 each per quarter.

Home Economics, 100, 101, 102, 103, 300, 301, 302, 303, 307, 410, and 411, 50 cents each; 104, $1.00; 204, 304, 306, $2.50 each; 205, 206, $3.50 each.

Education, 204, 50 cents; Education, 304, $1.00.

DORMITORIES

The College maintains two dormitories, Mynders Hall for ladies and the Men's Dormitory. Students boarding away from home are expected to live in the dormitories. This regulation is made because the College authorities believe that students cannot otherwise enjoy all the advantages of college attendance. Young lady students away from home having immediate relatives of the family in Memphis or near the College may board with them. Other students will not be permitted to live outside of the dormitory except upon the written request of the parent or guardian, and then only in homes approved by the College authorities.

All arrangements for board outside of the dormitory must be approved by the College, and except in homes of immediate relatives, must be made through the College.

RESERVATIONS

It is very important that those who expect to attend the College should write to the President and have room reserved as soon as they definitely determine to attend. Arrangements will be made for all who come, but rooms will be reserved in the order in which applications are received. A deposit fee of $3.00 is required for reservation which will be credited on the expenses for the term. The reservation fee will not be refunded unless notice of cancellation is given to the College authorities four days before the beginning of the quarter for which reservation is made.

WHAT THE STUDENTS FURNISH

Students rooming in the dormitories should bring the following articles: Towels, bed linen, blankets, and a pillow. Students living in the dormitories will be required to keep their own rooms in order, and the matron will make daily inspection.

COURSES OFFERED IN THE WINTER QUARTER, 1928-29

Below is a list of the courses offered in the Winter Quarter. They are described in the general catalogue, a copy of which can be secured by application. New students may enter any courses for which they are prepared. Figures in parentheses indicate the number of quarter hours of credit.

For the benefit of teachers in service, certain classes have been scheduled at 3:00, and others at 4:00, Mondays, Wednesdays and Fridays. A teacher doing full time teaching may carry six hours each quarter on the approval of the Board of Education employing him, but not more than six hours.
